MESSAGE FROM PRESIDENT OF MALAYSIAN SOCIETY FOR HIP AND KNEE SURGEONS

Greetings to all MSHKS members and all esteemed colleagues with interest in hip surgeries.

As we gear up to our “Hip Attack” conference, I am thrilled to invite everyone to come together to celebrate the incredible advancements and achievements in our field. This year’s meeting promises to be an exceptional opportunity for us to connect, share knowledge, and reaffirm the power of our unity as a society representing hip and knee surgeons.

Our society was founded on the belief that as a united front, we can achieve more. Our collective strength lies in our ability to come together, share experiences, and learn from one another. This meeting serves as a testament to the power of collaboration and the impact it has on the advancement of our specialty.

Education is at the core of our society’s mission. By pooling our knowledge and experiences, we empower each other to continuously enhance our skills and stay at the forefront of innovation. Through interactive workshops, engaging discussions, and presentations from international, regional, and local leaders in the field, we aim to further elevate our collective expertise.

Networking is another crucial aspect of our society. The connections we make here extend far beyond the confines of this meeting. They open doors to collaborations, mentorship, and support systems that can enrich our professional lives. By fostering these connections, we strengthen not only our individual practices but also the entire community of hip and knee surgeons.

Finally, as a united society, we hold a collective power that enables us to advocate for our specialty and influence positive change within the healthcare landscape. By coming together, we amplify our voices and leverage our influence to shape policies, advance research, and improve patient care.

In the spirit of unity, I encourage you to take full advantage of this meeting. Engage in lively discussions, forge new connections, and absorb as much knowledge as possible. Let us harness the power of our society to elevate ourselves, our specialty, and, most importantly, the lives of the patients we serve.

I would like to also take this opportunity to thank the Scientific Committee led by Dr Jeffrey Jaya Raj for the excellent program line-ups.

Thank you for being a part of this extraordinary community. See you all in Kota Kinabalu!

Dr Chua Hwa Sen

MESSAGE FROM SCIENTIFIC CHAIRMAN, 3RD MSHKS CONFERENCE 2024

Greetings to all of you and Welcome to our very own “Land Below The Wind” Sabah for the 2024 MSHKS “HIP ATTACK” Conference.

As the Scientific Chairman, it is my pleasure to share with you that the line-up of programmes, workshops, talks and crossfire sessions which have been hand-picked and meticulously selected by my very able committee are going to blow your mind away!

Why “HIP ATTACK”? you may ask. The programme curated has been designed to ‘attack’ all aspects of hip preservation, primary, complex primary and revision hip surgery comprehensively together with interesting and fiery crossfire sessions involving prominent and eloquent speakers both internationally and locally on various topics revolving around hip surgery. It is the intention of MSHKS to continuously provide avenues and platforms for arthroplasty and young junior surgeons to continuously grow in updated knowledge and skills so that we can provide the best for our patients!

We are proud to have Mr. Matthew J Wilson from the Exeter Unit, UK and Dr Thomas Heyse from Germany as part of our esteemed international faculty bringing us the latest updates on hip preservation and impaction bone grafting revision surgery. It is also a great privilege for me to honour all our local highly experienced speakers and facilitators playing a major role in making this meeting a huge success.

We have an exciting line-up of events planned starting from the Impaction Bone Grafting workshop on Friday followed by one and a half days of interesting talks and crossfire sessions. I strongly urge all participants to make the best of what this conference has to offer and use it to the best of your ability to offer top-notch care and treatment to your patients.

I hope while enjoying this wonderful conference, you get to enjoy the beautiful relaxing local favourites in Kota Kinabalu. I would like to end with this quote “The key to pursuing excellence is to embrace an organic, long-term learning process, and not to live in a shell of static, safe mediocrity. Usually, growth comes at the expense of previous comfort or safety.”— Josh Waitzkin.

Thank you all for coming and welcome to SABAH once again.

ENJOY! Looking forward with great anticipation to meeting all of you during the conference.

Dr Jeffrey Jaya Raj
